

The brand **Azzurro** offers high-quality cosmetic chairs and treatment couches, as well as multifunctional devices like combi machines. These professional devices are used, among others, in beauty salons, podiatry offices, massage studios, and physiotherapy clinics.

AZZURRO®

solutions for cosmetology

Comfort and functionality in one

Azzurro Lux electric cosmetic chair with heating is a modern solution designed with demanding specialists in mind. The use of **three actuators** controlled via a wired system ensures **precise and trouble-free adjustment of the individual parts of the chair**. The chair stands out for its high stability and versatility, making it ideal for use in beauty, podiatry, and aesthetic medicine clinics. Intuitive operation and a wide range of adjustments allow for **comfortable chair customization** to meet the needs of both the client and the specialist performing the treatment.

remote control

*the seat has an
adjustable backrest and
footrest angle and a seat
height of 60-90cm*

Easy adjustment with a remote control

The wired remote control allows for **precise chair adjustment in three planes**: height, backrest angle, and footrest position. This range of adjustments enables **customizing the position to the type of treatment** – both for the client's comfort and the specialist's ergonomics. For user convenience, the remote control **can be hung on the holders** located on both sides of the seat.

heating function

heating
backrest and seat
allows you to relax
during cosmetic treatments

Heating function

The chair is equipped with a heating option for the backrest and seat. The warmth **helps relax muscles** and provides pleasant sensations, which can aid in relaxation during cosmetic treatments. Heating **helps dilate blood vessels**, which can increase blood flow to the treated area, improving the effectiveness of many cosmetic treatments.

Functionalities facilitating treatments

The seat height is adjustable **from 60 cm to 90 cm**, allowing for comfortable position customization for both the client and the person performing the treatment. **When fully reclined, the chair reaches a length of 2 meters**, providing comfortable body support – even during treatments that require a lying position. With such parameters, the equipment **is suitable for a variety of treatments**, both cosmetic and specialized, ensuring ergonomic work and high service standards.

removable armrests

facilitate efficient
seating, movable 180°

Comfortable seat and practical armrests

The wide seat **ensures comfort even during long treatments**. The easy-to-remove, **movable armrests that rotate 180°** facilitate the client's seating and provide free access for the person performing the service. The chair is also equipped with an **adjustable headrest** that ensures stable head support and additional comfort, especially for taller users.

adjustment to needs

*pull-out headrest
provides comfort
and convenience for
every customer*

Convenience for facial and body treatments

The chair is perfect for both cosmetic and care treatments, as well as for physiotherapy and tattoo studios. **The ability to recline the chair to a treatment couch position** significantly expands its range of use. Another advantage is the **headrest hole**, discreetly hidden under a plug, which increases comfort during a lying position – especially for **back treatments**. Thoughtful solutions translate into **user comfort and specialist ergonomics**.

**synthetic
leather**

high quality

*the materials used
ensure ease of cleaning
and durability of the product*

Style and durability

The solid construction of the chair ensures **stability and durability** during daily use. The seat filled with foam of properly selected hardness **guarantees comfort** even during long treatments. The upholstery made of high-quality, pleasant-to-touch synthetic leather in shades of white gives the chair a professional look, while being **moisture-resistant and easy to maintain**. The durable base ensures stability, and the precise finishes emphasize the **modern character** of the chair, enhancing the seat's ergonomics.
