

GLOW

effective solutions for nail stylists

GLOW brand offers professional lighting products that enhance services in both beauty salons and medical offices. It features a wide range of specialized lamps, including UV and treatment lamps, essential for precise work.

practical lamp

*will be perfect for
working with dual molds,
tips and in the curing process
for extensions on templates*

Practical UV Lamp

The **Glow Snake UV lamp**, emitting spot light for **initial gel polymerization**, is an indispensable tool in the daily work of nail stylists. It **enhances comfort and service quality** in nail salons and **boosts daily efficiency**, ensuring convenience and professionalism. Perfectly suited for **working with dual forms, tips**, and curing processes during template extensions.

flexible arm

*allows you to precisely
adjust the angle of the light,
which increases convenience
and efficiency of work*

Comfortable Positioning

The flexible arm of the lamp **allows precise adjustment of the light angle**, improving convenience and work efficiency. A **sturdy clip-on handle** with soft inner padding protects the countertop surface from scratches, **ensuring stability** during use.

helpful solutions

the USB port allows quick connection to a power source, and the 140-cm-long cable provides plenty of freedom to position the lamp

Practical Power Supply

The device, equipped with a **USB port**, allows quick connection to a power source. A **140 cm long cable** offers flexibility in positioning the lamp at your workstation, providing seamless **space adaptability** without concerns over outlet access.
