### Comfortable chair in a Scandinavian style

The seat is filled with foam and covered with upholstery made of pleasant-to-the-touch synthetic leather in shades of white, which is very easy to keep clean. Small stains and dirt can be easily removed with a slightly dampened cloth. Aesthetic quilting and careful stitching provide an elegant touch, while the metal frame in shades of black adds stability to the furniture. Matte-finished legs are finished with plastic protections, additionally protecting against accidental damage. The chair in the Scandinavian style is a comfortable piece of furniture that will become a decoration of the reception area of any beauty salon.
